Heal Bodies, Minds, & Spirits

Healthy Lifestyles

Vision Statement:

Our community garden will grow responsible citizens who become leaders that unify their community by empowering themselves & others to live intellectually enriched, physically healthy, & spiritually centered lives. The cross-generational collaboration from our garden will create a family of interdependent, environmentally conscious global citizens.

Mission Statement

Our community garden will grow responsible citizens who become leaders that unify their community by empowering themselves & others to live:

- Intellectually Enriched Lives: Teachers will engage students in inquiry based, exploratory educational lessons in each of the four major subject areas: Language Arts, Mathematics, History, & Science.
- Physically Healthy Lives: Teachers & experts will cultivate healthier lifestyles by teaching students, staff, and parents about health, exercise, and nutrition.
- Interdependent, Environmentally Conscious Global Citizens: Students, staff, & community members will increase interdependence by growing a green oasis and organic produce to improve air quality, community bonding, & environmental awareness.

Current Community Garden Supporters & Partners

On behalf of the students, teachers, & community members we thank you for your time & hope that you decide to join us as a partner to help make our community garden a revolutionary success!

How can we help you and your cause?

What kind of commitments are you willing to make towards helping our community garden become a success?
